SOEP-IS 2015 – Questionnaire for the SOEP Innovation Sample

SOEP-IS Group
Running since 1984, the German Socio-Economic Panel study (SOEP) is a wide-ranging representative longitudinal study of private households, located at the German Institute for Economic Research, DIW Berlin.

The aim of the SOEP Survey Papers Series is to thoroughly document the survey’s data collection and data processing. The SOEP Survey Papers is comprised of the following series:
Series A – Survey Instruments (Erhebungsinstrumente)
Series B – Survey Reports (Methodenberichte)
Series C – Data Documentation (Datendokumentationen)
Series D – Variable Descriptions and Coding
Series E – SOEPmonitors
Series F – SOEP Newsletters
Series G – General Issues and Teaching Materials
The SOEP Survey Papers are available at http://www.diw.de/soepsurveypapers

Reading Aid

This representation of the questionnaire contains the same information as the portal paneldata.org.

Here, in addition to the question number, question text, interviewer instructions, and answer options, you find printed in green the file name and the variable name with the variable label, which contains information from the question. If you see rows of green lines below the answer option, the questionnaire defines several variables or informations are stored in more than one data set.

The routing by filters is depicted in blue. Each variable is preceded by an identifier (which generally contains the question number, marked here with a yellow dotted line), which is given, if the variable is used in filters in a subsequent question. Such filters are usually shown (as gatekeepers) at the beginning of the question.

This reading aid does not cover a few exceptional cases: If the filter (as gatekeeper) only affects one of several variables for a question, the filter is printed in blue behind the variable. There you will also find a "go to" command in the form 2 @ Q73. Here, the questionnaire skips to question 73 if the variable results in value of 2.

Phrases that are not already translated in English are displayed in German and preceded by [de].

B2 Interviewer evaluation of interviewee

The following questions will just be answered by the interviewer. Before you start the interview, we exceptionally ask you for your personal evaluation about opinions and attitudes of the interviewee. Later we will also ask the interviewee to rate your opinion and attitudes on the same questions.

With the help of this probably extraordinary approach we want to examine, how people notice and evaluate each other and which influences such evaluations have on the responses made by the interviewee.

Of course, we will keep your answers a secret and not show them to the interviewee. Vice versa, you will not get to know how the interviewee evaluates you.

Q7 What do you think? How much is the interviewee interested in politics? Very interested, Moderately interested, not that interested or not a bit interested?

ModSal Module Saliva

Q3:MODUL=2,12,23,123

Q1301 Please just ask the interviewee for the saliva sample, if you have unused test tubes available.
Before we start with the interview, I want to ask you, if you already support scientific research on stress with a saliva sample. Maybe you remember the small information sheet about this topic, which you received together at the begin of the new survey run.
If you can imagine to give a saliva sample, I ask you to have a look at this information brochure. Of course, the delivery of the saliva sample is absolutely voluntary.

Please hand out the brochure in every case, even if the interviewee agrees immediately.

T1302 The delivery of the saliva sample will be at the end of the interview.
I ask you not to eat, drink, smoke or chew gum during the interview, since elsewise the saliva sample can be polluted.

Igebmo In which month were you born?

Q12 Is the respondent respectively the person who answers the questions about the household the head of household?
The questions on the household should be answered by the person who knows most about the issues of the complete household and the other household members.
Important Note: The questions on the household have to be filled out once for each household. Without this question part all other questions would be useless for data analysis!

Q2:STICHU=22,25

In the following we are interested in if, how often and how intensive you are physically active. In this sense we ask you on the one hand about physical activity in general and on the other hand we ask in particular about sports activity. What we mean by with physical activity is all activity, where your heart beats faster and your breathing is more rapid for some time. These aspects include not just sport, but also some household tasks in house or garden, the way to your working place or shopping by feet or bicycle, or physical activity regarding your job.

Q100  Regarding the last seven days, how many days have you been active for at least 60 minutes per day?

**B30 EU Financial Crisis**

**Q2STICHU=25,26**

**Q144** In the last years there were many discussions about the difficult financial situation of countries like Greece, Spain or Portugal. We ask you to share your opinion generally. Please specify, whether you agree with the following statements:

*Please answer using the following scale. The value 1 means: Does not apply at all. The value 7 means: Does fully apply. You can use the values in between to make your estimate.*

*Please show list 144!*
In times of crisis, Germany should financially help other member states of the European Union which are in considerable economic difficulties.

In times of crisis, Germany should financially help European countries outside the European Union which are in considerable economic difficulties.

Q145 Please imagine the following invented situation. To fight against budget crises of EU countries in a pinch, in the future all member states have to give financial contribution. This contribution will be paid by every person within the EU who has an own income. The contribution will be collected permanently and only for fighting the crises of EU countries in a pinch.

What do you think about the following proposals? Everyone within the EU should pay a contribution of ...

Please answer using the following scale. The value 1 means: Does not apply at all. The value 7 means: Does fully apply. You can use the values in between to make your estimate.

B33 CV: Module about partnership

Q159 In the following, it is about partnership and marriage. The questions are always asked in terms of the relationship, regardless of whether you got married in this relationship or not. Whether you have been married in the particular relationship or not will be clarified in subsequent questions. The questions are about both, the current relationship, as well as about former relationships. We start with the current relationship and then ask you retrospectively about the permanent relationships you had before. Concerning the previous relations, we speak of a permanent relationship if they lasted six months or longer.

T5 Afore you stated that you actually work [PAZ10] hours per week and earn [PNETT] euros net per month.
The following questions refer to possible changes of actual working hours per week and the possible earnings per month.
Please imagine these changes in a situation in which many other characteristics stay the same, in fact:
- You keep your current job and your current working environment. - If you live together with a partner, then her or his weekly working hours and earnings stay the same. - You are not allowed to take up additional paid work. (If you have earnings from a side job, please expect your working hours and earnings from this side job to stay the same.) - The price per hour you pay for e.g. childcare or other services you use to be able to work stays the same. - Possible other earnings you receive from other income sources (e.g. social benefits, alimony, etc.) stay the same.

Q321 Please imagine that your actual weekly working time changes. Now you have to work [PAZ10+5] hours.
How much would you have to earn net totally per month, so that you are satisfied with this situation just as you are with your current situation?
Euros net per month: 

Q322 Please imagine that your actual weekly working time changes. Now you have to work [PAZ10-5] hours.
How much would you have to earn net totally per month, so that you are satisfied with this situation just as you are with your current situation?
Euros net per month: 

Q323 Please imagine that your actual weekly working time changes. Now you have to work [hRandom] hours.
How much would you have to earn net totally per month, so that you are satisfied with this situation just as you are with your current situation?
Euros net per month: 

Q324 Please imagine again that your actual weekly working time changes. Now you have to work [hRandom2] hours.
How much would you have to earn net totally per month, so that you are satisfied with this situation just as you are with your current situation?
Euros net per month: 
Q3241 Please imagine you won in lotto, so that you (and your partner) receive a monthly income just as the amount of your current monthly household net income. This payment you (and your partner) receive as long as you live.

How much hours would you work per week in this case?

Please imagine you had to work these amount of working hours in your current job. If you would stop working, your answer has to be 0.

Q2:STICHU=10/11,19

T6 We would like to know now, what you have done yesterday and how you felt at the same time. First we will ask you when you got up yesterday. Then we will ask you to reconstruct yesterday with the help of this booklet. Please think of your day as a sequence of episodes between 15 minutes and 2 hours. A sign for the end of an episode could be the change of the location, the end of an activity and the begin of another activity or the change of the participating persons. Regarding some episodes we will ask further questions.

Episodes should normally include a period of 15 minutes to two hours. But there can be activities which take longer (e.g. work). These should determined as well.

Explanation of the scientific principal for this module:
One goal of social research is to find out, what effects our quality of life in particular. To achieve this, scientists need evaluations of people about how satisfied they are with their lives. This question we pose at the end of this survey every year.

However, sometimes it is not sufficient to ask people in general about how satisfied they are. For this reason scientists started to ask people for their feelings throughout the day. They shall give information about how they feel about their life in particular moments and not just in general. This procedure allows to get a better impression of a person’s life. Thereby it is possible to examine how certain activities influence our feelings and quality of life day after day.

Q332 When did you get up yesterday?

Please use the following format hh:mm. You can type in the time in this format or select the time.

hours

minutes
Q333 What did you do afterward? If you did several activities at the same time, we are initially interested in the most important activity. Please select from this list:

Germany should allow more people to live in Germany,
if they come from poorer countries outside of Europe.

In general it is good for the German economy that
immigrants come here.

The cultural life in Germany is generally enriched by
immigrants.

Germany becomes a better place to live due to
immigrants.

I ask you to answer the following questions by yourself. Please enter the answer directly into the computer. I will show you immediately how this works.

After you have opened the following screen, please turn the laptop to the interviewee so s/he can look at the screen. Read out the question once and, if necessary, show briefly how the text input works.

Then turn the laptop so you cannot look at the screen anymore. The interviewee is asked to type in the answer him-/herself.

If there occur any reservations, please encourage the interviewee. Otherwise s/he should choose “No Answer”. Please do not type in the answer for the interviewee.

B59 Evaluation of interviewer by interviewee

Q3:MODUL=1,12,13,123

T10 Within the next questions we try to find out more about how people notice and rate each other. Especially, we are interested what people think about the ideas of other people. One of the goals of our examination is for example to find out whether different people agree in their ratings.

Today we will therefore ask you for your personal ratings on opinions and attitudes of your interviewer.

Your statements will be kept a secret and are not visible for the interviewer. We will also not use your statements to evaluate the interviewer. This questions are just used to examine how exact people can rate opinions and attitudes of other people.

So there are no wrong or right answers. We just ask you to answer honestly using your personal rating.

Q386 What do you think? How much is the interviewer interested in politics? Very interested, Moderately interested, not that interested or not a bit interested?

Very interested 1
Moderately interested 2
Not so interested 3
Completely disinterested 4

**Q403** If you are visiting a doctor, it is possible you are offered services (medical examination or treatment) for which you have to pay by yourself, since the health insurance does not bear these costs. It is also possible that you ask the doctor by yourself for ‘individual health care services’. These could be examinations using ultrasound or blood tests, glaucoma- and cancer prevention, but as well many other services.

Did you make use of one or several of these ‘individual health care services’ last year, in 2014?

| Yes, once | 1 |
| Yes, several times | 2 |
| No | 3 |
| No answer | -1 |

| On four to six days weekly | 2 |
| On two to three days weekly | 3 |
| On two to four days monthly | 4 |
| Once a month or less often | 5 |
| Never | 6 |
| No answer | -1 |
Q4041: If you drink alcohol, how many alcoholic drinks do you normally take at this day? Please sum up according to the following example. One drink is counted for an eighth liter of wine or sparkling wine (a bottle of wine with 0.75 liter would then count as six drinks) or one drink is counted for 0.33 liter beer (two of 0.5 liter bottles of beer would count as three drinks) or one shot of Whiskey, Brandy, etc. is counted as one drink (so a double shot is equivalent to two drinks). Please estimate the amount of drinks equivalent to mixed drinks by yourself. Please show list 404B!

| One to two drinks | 1 |
| Three to four drinks | 2 |
| Five to six drinks | 3 |
| Seven to nine drinks | 4 |
| Ten or more drinks | 5 |
| No answer | -1 |

Q4043: How often do you eat meat, fish, poultry or sausage? Please show list 404A!

**B66 Happiness app**

Q2:STICHU=26,22 and Q3:MODUL=3,13,23,123 and Q3311:SIMMOBBS=1,2

**Q413** Let’s go on with the topic “happiness and satisfaction”. Next, I want to show you a short movie. This movie will present you an app - a program for your smartphone - which you can install later. This free app is named “happiness in everyday life” and should support you to observe your well-being in detail. This can help you to realize what exactly makes you happy and what rather does not.

By using this app you will be part of study which collects data about the well-being of the German population.

| Start movie | 1 |
| Skip movie, since: | 2 |

Q4131:SIMAPP=1,3
112 Please fade in the movie

Q4131:SIMAPP=1,3
Q4132 If you are interested in the app, I would ask you to read and sign the letter of agreement which includes all important information about the app "happiness in everyday life". Then you will receive a participation code which you have to type in when using the app for the first time.

If the interviewee is not sure: There will be no problem, if they signs the letter of agreement and later decides against downloading or using the app. But the signature is necessary to ensure that the interviewee agrees on the participation conditions.

Letter of agreement is handed over to interviewer 1

Questionnaire 2015
Q4141:

**SIMSALIVAЕВ=1**

**T4142**

*Please arrange the utensils for the saliva sample now:*

- labels for the interviewee with their person number: `<person number>`

*Please match the numbers exactly!*

- 2 test tubes
- a cloth for underlayment
- gloves if necessary

Q4143:

*If both letter of agreements are signed, please check now, if:*

- the name is recorded
- date and location are recorded
- it's signed by themself

*Then please note the person number `<person number>` on both documents:*

- Letter of agreements were signed: **1**
- Letter of agreements were not signed, since: **2**

Q4144:

*Now you can start with the first sample:*

1. Please spread a cloth on the table and put the test tubes with funnel and cap on it.
2. Please wash your hands or use a fresh pair of gloves.
3. Please open a test tube for the participant and indicate that the tube should just be touched underneath the opening to prevent contamination of the sample.
4. Please explain that the tubes should be filled with saliva up to the mark. This can take 2 to 3 minutes. Please consider to reach the mark with saliva and not spume, since otherwise there is not enough saliva for an analysis.
5. If you prefer, you can use gloves or tissue to take the tube back.
6. Please close the tube by using some pressure so you hear a ‘click’ noise of the latching cap. Hold up the tube till the liquid from the funnel is mixed with the saliva.
7. Unfasten the funnel and put it on the cloth. You can dispose of the funnel in your normal household garbage later.
8. Then you can close the tube with the cap and shake it for 5 seconds.
9. Please note the date (DD.MM.) on the bar code sticker together with the person number `<person number>` and stick it on the tube.

*Tip: You can support your saliva production by relaxing the jaw and moreover by rubbing your cheeks. If it is problematic to collect the necessary amount of saliva, it can be helpful to put on quarter of teaspoon with sugar on your tongue.*

- Saliva Sample 1 is collected and inscribed: **1**
- Saliva Sample 1 not collected, since: **2**

Q4144:SIMSALIVA1=1 or Q4145:SIMSALIVA2=1

Thank you very much for collecting the saliva samples. Please care about to dispose of the funnels, the cloth and as the case may be of the gloves as well as wash your hands. You can also dispose of the two remaining bar code stickers. Please pay the incentive (10 euros for both saliva samples in total) and the thank-you for the participation in the interview together. Note the amount at the voucher. Please send the collected samples and the letters of agreement every 2 to 3 weeks to <colleague> (institute for the survey) by using the envelopes we gave you. You do not have to cool the samples or care for particular storage. You should just avoid temperatures above 40 and below 0 degrees Celsius.
