SOEP-IS 2012 – Questionnaire for the SOEP Innovation Sample

SOEP-IS Group
Running since 1984, the German Socio-Economic Panel study (SOEP) is a wide-ranging representative longitudinal study of private households, located at the German Institute for Economic Research, DIW Berlin.

The aim of the SOEP Survey Papers Series is to thoroughly document the survey’s data collection and data processing. The SOEP Survey Papers is comprised of the following series:
Series A – Survey Instruments (Erhebungsinstrumente)
Series B – Survey Reports (Methodenberichte)
Series C – Data Documentation (Datendokumentationen)
Series D – Variable Descriptions and Coding
Series E – SOEPmonitors
Series F – SOEP Newsletters
Series G – General Issues and Teaching Materials
The SOEP Survey Papers are available at http://www.diw.de/soepsurveypapers

2017

The variable names mentioned in this document belong to a collection of datasets, which is released with doi:10.5684/soep.is.2015.
Reading Aid

This representation of the questionnaire contains the same informations as the portal paneldata.org.

Here, in addition to the question number, question text, interviewer instructions, and answer options, you find printed in green the file name and the variable name with the variable label, which contains information from the question. If you see rows of green lines below the answer option, the questionnaire defines severals variables or informations are stored in more than one data set.

The routing by filters is depicted in blue. Each variable is preceded by an identifier (which generally contains the question number, marked here with a yellow dotted line), which is given, if the variable is used in filters in a subsequent question. Such filters are usually shown (as gatekeepers) at the beginning of the question.

This reading aid does not cover a few exceptional cases: If the filter (as gatekeeper) only affects one of severals variables for a question, the filter is printed in blue behind the variable. There you will also find a "go to" command in the form 2 @ Q73. Here, the questionnaire skips to question 73 if the variable results in value of 2.

Phrases that are not alreday translated in English are displayed in German and preceded by [de].
About this Questionnaire

Is the respondent the head of household, the person who answers the questions about the household?

The questions on the household should be answered by the person who knows most about the concerns of the total household and the other household members. If known, that person is identified with * in the address protocol.

Important Note: The questions on the household have to be filled out once for each household. Without this question part all other questions would be useless for data analysis!

Q82  Now it’s about how often you apply your language skills in various fields. First, the use at home: how often do you use your language skills at home? Please tell me for each language in which you have language skills, whether you use it never, rarely, sometimes, often or always at home.

By saying „using a certain language“ we refer not only to talking and writing in that language, but reading newspapers, books, or listening to audiobooks etc. in this language too.

In the following, it is about partnership and marriage. The questions are always asked in terms of the relationship, regardless of whether you got married in this relationship or not. Whether you have been married in the particular relationship or not will be clarified in subsequent questions. The questions are about both, the current relationship, as well about former relationships. We begin with the current relationship and then ask you retrospectively about the steady relationships you had before. Concerning the previous relations, we speak of a steady relationship if it lasted six months or longer.

When faced with a bad situation, I do what I can to change it for the better.

Even when everything seems to be going wrong, I can usually find a bright side to the situation.

I stop thinking about a goal that has become unattainable and let it go.

When I have decided on something, I avoid anything that could distract me.

If I cannot attain a goal, I think about other new goals to pursue.

If I can’t attain a goal one way, I look for alternative ways to still get to it.

Q238  Now we would like to know what you did yesterday and how you did feel about it. First you will be asked when you got up yesterday. Then you will be requested to reconstruct the previous day with the help of this list booklet. Please think about your day as a sequence of episodes. In general, these episodes last from 15 minutes to 2 hours. The mark of an end of an episode can be a change of location, the end of an activity and the beginning of another activity or a change of the people involved. About some episodes further questions will be ask.

When did you get up yesterday?
